A screenshot of a dark-themed source control interface, likely from a browser extension or a developer tool. The interface shows a file tree on the left and code editor panes on the right. The top bar has red, yellow, and green circular icons. The left sidebar has icons for file, search, and network. The main area has tabs for 'SOURCE CONTROL' and code editors for 'App.js' and 'index.js'.

A screenshot of a code editor interface, likely VS Code, showing a file named `App.js`. The interface includes a sidebar with icons for file operations like copy, paste, search, and refresh. The main area shows the code for the `App` component. A red oval highlights the line of code `const currentLoca`, which appears to be a typo for `const currentUserLoca`. The code also includes imports for `IntlProvider`, `MainContainer`, and `HomeWrapper`.

```
src > JS App.js > ⚡ App
17 |   en: enMessages,
18 |   he: heMessages,
19 | }
20 |
21 |
22 function App() {
23 |
24   const currentUserLoca
25 |
26   return (
27     <IntlProvider de
28       <MainContainer
29         <HomeWrapper
30           <Routes>
31             <Route p
32               <Route p
33                 <Route p
34                   <Route p
35                     <Route p
36                       <Route p
```

```
36      <Route p  
37      <Route p  
38      <Route p  
39      </Routes>  
40      </HomeWrapper  
41  
```
